Liz.....Where are Larry & Mo?? (hows your memory)
or.....Scruffyness !! Scruffyness !!

The greatest gift that i possess

I thank the lord that Ive been blessed

With more than my share o fScruffyness !,

Thats not to say Liz looks anything like Ken Dodd ...

Mags R.....Covid came, hairdresser went...I am searching for my hairdresser.

All I've known & care for will sink into the abyss of a dark age made
more sinister by my hair style.

I will look for my hairdresser, I will look on the sea, i will look in the air,
on the land, in the hills, in the streets & on the beaches.

But Was unable to find her....This.....is NOT my finest hour.

Or..... Ann's Way

and now the split ends are here
And my face is flanked by curtains.

My friends I'll say it clear.

My hairs a state of which I'm certain

I've lived a life thats full.

I tangled each and every dreadlock

But more ,much more than this

I cut it my way

Prizes winners to be announced
in next issue!

Ringlets, I've had a few
But then again too few to mention

I clipped and hacked anew

And I soaped it through without exemption

I combed each chartered course

Each careful cut along the byway

But, more, much more than this, I cut it my way
